

Strip n Play with Valerie Walk-Through v1.0

First off, Thanks for your interest in my game! I am really enjoying making it, and I am glad you played it enough and got stuck and want more!

Hints:

1. Make sure you pay attention to the Cum Counter! Some options require 9 or 10 points to progress
2. If you lose a game, you will cum, if you're out of Cum Points, Game Over!
3. There are some options that are not selectable. This means you need to cum, and go to sleep, then if you continue that option should be available the next time around.
4. When you sleep, the difficulties and cum counter will reset. After Val is naked, you will have a few different options to skip to. "Continue where we left off" is the fastest way to see all the content.
