Quests

Main Quests

=====

In order to progress through the main quests you must complete the previous main quest and sometimes also another side objective (i.e. in order to take the patrol blessing road quest you must have completed the kill rats quest and also be level 2). The Quest tab in the menu will give you a brief overview of what to do if you are stuck.

Capital

1 Star:

- **Intro Kill Rats** - (Kill 5 rats in the Sewer, enter the Sewer by going South once from the City Center and then talking to the guard down the stairs to the right), this will unlock the ability to take side-quests.
- **Patrol Blessing Road** - (You need to be level 2 to accept this quest) (Exit the city by going South twice from the City Center, talk to the guard at the patrol site, go East twice, then North once)
- **Strange Noises From The Sewer** - (Talk to the sewage treatment worker, then go to the Jail Room in the Sewer to gain access to the Hobo Camp. Kill 'Unknown' [No H-scene for losing], talk to hobo outside the boss room, report to the Guild Receptionist, talk to the injured adventurer located up the stairs behind and to the left of the Priest in the Church)
- **Secret Investigation** - (Talk to Adam [from Patrol Blessing Road Quest] in the top right of the University (go east from the Town Center and choose the top option), exit the City to the world map and then go to the cliffs off to the left, check all the exclamation marks, then go to the world map again and go north one space, defeat the bandits [No H-scene for losing], go back to Adam in the University)
- **Strange Noises From The Sewer Part 2** - (After completing the previous quest a nun will approach you and tell you the wounded adventurer is ready, go back up the stairs in the Church and talk to him again, explore cave, kill Unknown, exit cave, kill Unknown Type B, report back to the Guild, take control of a 'high ranking adventurer party' and explore a portion of the sewers)
- **Exam For Two Star Adventurers** - After completing the previous quest speak with the Guild Receptionist, Go to the Port Town on the East of the World Map, Talk to Leon to progress the main quest, once you reach the island go through the paths marked by red, then blue, then purple flowers. Fall down the hole and proceed through the path towards the bottom right and flip the yellow lever, defeat the golem enemy in the upper path by using magic scrolls or spells, use a perception potion if you have one because there are pitfall traps everywhere. Run away from the knight, if you are caught it is an unavoidable death and you get sent back to the room after the golem to try again, you have to fake him out a couple times and run back the way you came on some intersections and he sometimes teleports ahead of you so be careful. After some dialogue you will have completed the quest and you can go back to the Adventurer's Guild and turn it in.

2 Star:

- **Orc Pig Subjugation** - After completing the Promotion Exam you now have access to two star quests, you can receive this quest from the two star section of the quest board in the Adventurer's Guild. To begin, leave the City and go to the Forest Of The Witch (south-east of Village), travel to the bottom of the area and speak to the adventurer, then go into the cave, you will find your target in the Northeast of the cave.
- **Security Verification** - After accepting the quest speak with the Guild Receptionist, then go to the building in the SouthEast of the World map, after killing the creature in the storehouse and spending the night you will encounter an enemy on the way back, you don't need to kill him so just survive a couple turns.
- **Daddy Long Legs** - After accepting the quest speak with the Guild Receptionist, then go back to the Orphanage from the previous quest, you have to win 4 consecutive battles and the enemies are quite tough, I recommend just equipping the cheat sword.
- **Dirty Hunters** - Head down to the second floor of the sewers then go to the northwest corner of the map, there will be a ladder behind a closed door, going down the ladder will let you reach the third floor. After talking to the gnoll protecting the doorway go back up to the second floor and go to the southeast corner of the map to find Lostio the hobo and barter with him to get a recommendation letter, this can be done with money, force, or the Priestess depending on Lust/Love. Return to the gnoll to gain entry to the gnoll camp then question the gnoll dealer on the drug, after the dialogue flee to the north west. Briefly switch to Leon then Iris POV. Afterwards push the blue button on the east path of the starting location and the yellow button in the south of the map before going to the ladder in the northwest of the incinerator floor to finish the quest.

3 Star:

- **Titan Step** - After completing the "Dirty Hunters" quest talk to the guild receptionist to begin. Go to the south forest in the world map, travel to the south to exit the forest, then travel to the southwest to enter the Titan's Step town. Enter the Adventurer's Guild in the northeast of the town and talk to the receptionist, then travel to the Hospital Knight's Camp in the far south of the World Map. After speaking to the Hospitalar in front of the northern tent return to the Titan's Step Adventurer's Guild.
- **Poison Pink** - Go to the Slums in Titan's Step to gather information that it's the Gnolls that distribute it. Go to the ruins south of Titan's Step to retrieve a sample, go to the Adventurer's Guild in the capital to report on it. That will give you castle entry permits. Go to the castle. Meet The Voice. After that, deliver Poison Pink to The Eye (you'll need to go to the Slums, west of the red district). After the talk with her, there will be a tough fight with 3 Unknowns and a Demon.

Side Quests

2 Star:

Buy it at the adult store, it is the item named 工口 with a 0 in it. Not giving the witch this necklace will cause a different outcome at the end of the quest.) (note: if your alignment is high enough to be lawful, you can tell her that her master is tricking her and she will actually leave her master. as of now, there is no further interaction or perceivable consequence from doing so but should be noted for future update if TechnoBlade decide to expand upon the quest)

1 Star:

- **Sachiko's Milk** - (Obtainable after completing the 'Help With Milking at the Ranch' quest, Stroll around the Village and talk to the man next to the cows, you can complete the quest in two ways, the first is to use 200g to purchase the potion at the Potion Shop, the second way is to use alchemy to create the potion at the Potion Shop, if you want to use the second way talk to the man in front of the cows again and buy a bottle of milk, next go back to the city and buy an empty bottle from the Potion Maker, fill the potion up with slime by interacting with the clover icon in the Slime Pit in the Sewer, finally buy any remaining ingredients you may need from the Potion Maker and craft your potion.
- **Vo.30 Milk Quest** - Accessible after completing the previous two Milk quests and starting the 2 star Promotion Exam (New bad ending if you choose 2nd choice in all the dialogue options in this quest)

Character Quests

=====

Yarizo

- To get Yarizo in your party you need to have saved him the first time you visited the port town, this is done by successfully fighting off the people harassing him or paying off Yarizo's debt. Next you need to complete the 'Exam For Two Star Adventurers' quest. Now you should find Yarizo standing around in the Guild, speak to him to get him to join your party.
 - Since the dialogue is currently untranslated these are the choices you need to make. Choose bottom dialogue then top dialogue when given a choice.
- Now whenever you leave the town by the entrance or by carriage/boat you should have an option to take Yarizo with you. From what I can tell most of the scenes from the Dungeon Test have been carried over to the main game so look in that section of the Walkthrough to see how to get those scenes. The two new scenes with Yarizo can be seen by taking a carriage out of the town and by sleeping in an Inn at the Port Town or the Village close to the trading route. After seeing the scenes once you are given an option to skip them. These events also give Yarizo relationship and are currently necessary to view some of the more advanced camp scenes since there is no way to raise that variable in game by cheating like in the Dungeon Test (outside of save editing obviously). As far as I can tell there is no way to start the Bar event with Yarizo currently (unless you need a high Yarizo relationship stat?).

Potion Maker

Most of these events are pretty straightforward and simply require you to talk with the Potion Maker as Solo Male Protagonist and then just follow along with the dialogue to know what to do. Additionally you may need to increase her relationship points(RP) and raise her bond level. To raise her RP you may give her gifts purchased from shops, or do her quests (see below), alternatively you can use the Cheat God Item in order to raise her RP to the maximum allowed at your current bond level. Once you have reached the max amount of RP for the current bond level you should be able to initiate a bond level event which will raise your bond to the next level and thus unlock more events and reset your RP.

Gifts effects:

- Stuffed doll: 0 RP
- Bouquet: 1 RP
- Perfume: 0 RP
- Cosmetic: 0 RP
- Designers Bag: 0 RP
- Expensive Accessory: 0RP
- Magical Dildo: -1RP

Quests:

- "Materials for Alchemy" - 2RP - collect 10 red flowers and 5 spider webs. You can find red flowers outside the city, in the "Road to the Royal Capital", east of the Village and in the two Forest locations south and south east of the Village. A good place to farm them is in the south-east forest, at the bottom left corner of the map there's an exit to a camping area and a flower nearby, allowing easy collection (as the flowers reset every time you reload a map). Spider webs are found in the city sewers. Good place to farm them is in the water treatment facility

(after going level down, go right, past the green-haired NPC), the web there doesn't despawn after collection.

Relationship events:

- To start the relationship quests you have to visit the Guild first.
- Potion Maker scene 1 - While solo Male Protagonist talk to the Potion Maker, collect the two red flowers sitting around then talk to the Potion Maker, have the Potion Maker collect the flower on top of the hill to see up her skirt, this will increase relationship level to 1.
- Relationship level 1
 - "Help with ingredients for alchemy" - just a scene where she's mixing the ingredients with her feet. If you ask her for used stockings she'll give them to you.
 - "Need some certain mushrooms" [sic] - answer "OK" to go with PM to a cave. She will take off her shoes (two images), after you can decide to cum inside her shoes, she won't mind that.
 - "Books" - at this point you'll need to increase the relationship points before you'll be able to continue (see above how to do it). You'll accompany her to the University. Say nothing to have an extended scene where you look up her skirt. Passing a Cum Endurance check has no effect.
 - "I'd like you to buy something" - She'll ask you to buy 10 ice-creams. Say you don't need a new one for her to give you a half-eaten one.
 - "A place to relax" - she will take you on a boat. Upskirt picture with bare feet. This will increase the relationship level to 2. The choices only have effect on protagonist stats.
- Relationship level 2
 - "Chillax" - Pick up her stockings, bury your face in them, and cum to bukkake her feet.
 - "Gather slime" - You'll go with her to the water treatment facility. She'll be attacked by the anal licking slime, watch her fall victim to it for a cumming scene. After that it turns out it was all in the protagonist's head.
 - "Tavern" - Ask her if you can go with her, that will show a scene with her feet on the table. Choices in the bar don't matter.
 - "Pike and Shield" - protagonist suggests tickling PM's feet. She agrees. During tickling she falls asleep, feel free to play with her body, but don't insert the penis ("I wanna have sex"), that's an automatic bad end.
 - "Thank you" - She takes you to an abandoned basement. Rummaging there, she activates a poison trap that melts her shoes. Suggest to suck the poison out for a foot-licking scene. This will increase the relationship level to 3.
- Relationship level 3
 - "Library 2" - simple scene where she falls asleep on protagonist's shoulder.
 - "What's up?" - scene where two kids are harassing her, making her show bare breasts, choice doesn't matter
 - "Let's go" - a scene where you see a couple kissing and discuss the situation, no graphics.
 - "Beach" - to go to the beach you first have to visit the Beach location with Kohaku. Go to the far right location on the world map (it will become unlocked with the Exam for 2-star adventurers quest). It features a pseudo-blowjob scene, where Potion Maker licks an ice cream while squatting before the protagonist.
 - "The material of creature" - Potion Maker will milk the cum out of the protagonist. This will increase the relationship level to 4.
- Relationship level 4

- With level 4 you can visit the Potion Maker during the night. You can visit the casino for a footjob scene in a bunny girl costume or the bath, for a peep-hole view of PM bathing.
- In the 2nd street (to the East), during the day, you can have PM working at a maid cafe (triggers a face stomping scene in costume), gains 5 friendly points
- While sleeping at an inn with Potion Maker in the party, the protagonist will wake up during the night, go to the adjacent room for a footjob scene with the sleeping PM. Pass a Cum Endurance test to extend the scene a bit.
- The relationship events won't be available past this point until you start the "Titan Step" quest.
- "An Alchemist" - Talk with the Potion Maker, after a brief exchange she will be available as a choice for traveling together.
- "How do you feel about me?" - Talking, kissing scene. If you admit to Kohaku that you're cheating, that's an automatic bad end.
- "Stamping" - Footjob scene
- "It's like an ice-cream" - Blowjob scene
- "May I..." - Pissing in PM's mouth
- "Hot" - Cunnilingus, pass a Sex Technique test for a PM's cumming image
- "SEX?" - Anal sex scene.
- "My life is yours 1" - Choking hero with tights
- "My life is yours 2" - Facesitting
- Go to Titan's Step with Potion Maker in the party. Go solo in Titan's Step during the day. Go to the Inn to pick up the PM (she's by the bar). Go to the Alchemist guild (building in the south-west of the city) and talk with the NPC by the stairs. PM will leave your party at this point. Go back to the capital to visit her. This will enable the "Alchemy" quest
- "Alchemy" - missionary sex scene. This will increase the relationship level to 5.
- Relationship level 5
 - When in Titan's Step, center plaza during day, for 100SC you can take a picture with the PM to gain 3 friendly points (repeatable)
 - "Thigh job" - Thigh job with exhibitionism
 - "Blowjob while reading a book" - Exactly what's on the cover
 - "Cum Mug" - Drinking cum from a large mug (can include drinking piss if you select the top option after cum drinking)
 - "Masturbate" - Select top option twice to see PM masturbate, then have missionary sex with the protagonist.
 - "Armpit"

Follower Acquisition:

- Complete the Main Story Quests until the option of having a follower is available, this is after the Security Verification quest.
- Complete the event where you first see Yarizo after entering the Port Town for the first time.
- Complete all Potion Maker events and increase her bond level as far as you can, level 4.
- Speak with her as solo Male Protagonist and recruit her as a follower ("An Alchemist" relationship quest).

Succubus

- Go to the Brothel as solo Male Protagonist, talk to the fat man in the lower left of the dancing stage, then go to the bathroom in the top left of the room. Now go top right and speak to the man at the desk (where you can hire prostitutes). He'll tell you that the succubus is booked for 6 months.
- Visit the Low Traffic Street at night. You'll find Succubus attacked by the fat man. Defend her.
- Go to the brothel next night, talk to the man in the top right room. This will trigger a handjob & rimming scene.
- Visit Abbey during the day, interact with the quest marker under the tree. After a scene where she looks at kids (select top options both times, first asking if she wants to kidnap them, then that you were joking), she invites you for a drink. After getting wasted in the bar (first option increases alignment, second decreases) you both go to her home, to drink more. Irrespective if you tell her you love her or not, it will trigger a blowjob scene.
- Go to the Abbey during the day again and interact with the quest marker. This will trigger a scene where she's talking with a boy. She'll ask you for help on her next day off.
- Go to Succubus' home during the day (it will be a new option for going east of city center), this will trigger a cowgirl scene.
- Go to the Abbey during the day again, activate the quest marker, this will trigger a scene where the Nun scolds the Succubus.
- Go to the Brothel, interact with the man in the top right room again. Go to her home at night. This will trigger another cowgirl scene.
- Visit the Abbey during the day, talk with the Nun, this will trigger a combined Charisma + Intelligence check.
- Go to the Brother at night, interact with the quest Event marker. Afterwards, go to her home at night for another cowgirl sex scene.
- Go to the Brothel and talk to her when she's standing next to the stage. This will trigger a scene where she asks you if she should become a nun. If you answer yes, you'll be able to find her at the Abbey during the day.

Levels/Stats/Sexual Experience

=====

Stats affect your dice rolls throughout the game. Dice rolls are part of many different events such as combat, H-scenes, and various other encounters with NPC's or objects on the map. Both the Male Protagonist and the Priestess have Normal stats which are independent from each other and can be leveled separately, however currently only the Male Protagonist has Sexual stats.

Currently known stats are:

Normal: (Can be increased with stat points, obtained by leveling up, by interacting with the Priest in the Church)

- Strength - Physical Damage/Grope roll dice check
- Endurance - Physical Damage reduction and Max HP/Grope roll dice check
- Intelligence - Magic Damage (Fireball) and Max MP
- Charisma - Bargain roll dice check
- Agility - Trap/avoid enemy skill/Finger fuck test roll dice check
- Faith - Miracle Damage (Healing)

Sexual: (Can be increased with sexual experience, obtained by having sex, by interacting with Santa in the Red Light District)

- Cum Endurance - Helps the Male Protagonist resist cumming for longer, higher levels needed for certain scenes
- Erotic Technique - Helps the Male Protagonist sexually pleasure women, higher levels needed for certain scenes

Status Values

These are the commonly used status values in the game.

- Love - The amount of Love the Priestess has for the Male Protagonist, at 110+ you can talk to the Priestess and “talk with her about your netorase desires” doing this will unlock more netorase scenes, some scenes require higher levels of love.
- Exposure - How comfortable the Priestess is with exposing her body in public (doesn't seem to affect anything currently as Lust seems to change this, for now at least)
- Lust - How filled with Lust the Priestess is (At 150 lust the Priestess can remove her tights, at 200 she can remove all clothing, at 150 the Priestess can have NTR sex with certain NPCs)
- Excitement Value (MC) - How sexually excited the Male Protagonist is (To alter excitement value use the red/blue potions that can be purchased from the Potion Shop)
- Excitement Value (Priestess) - How sexually excited the Priestess is (Higher values unlock sex scenes, at 50+ the Priestess will wake up in the middle of the night after going to bed allowing her to interact with the Male MC for sex scenes or other NPCs for NTR sex scenes if her Lust is high enough, different scenes available at 50+ and 100. To alter excitement value use the red/blue potions that can be purchased from the Potion Shop, Excitement Value also goes up naturally upon experiencing sexual events that do not have actual sex/orgasm i.e. flirting with the Priestess or denying her sex when she asks for it)
- Masochist/Sadist (MC) - Obtained by selecting certain choices during dialogue/events, does not currently have an effect on the game
- Insanity - Obtained by doing a variety of different things, generally cheating on the Priestess or choosing certain dialogue options, does not currently have an effect on the game

Save Editing/File Decryption

These variables may not be accurate as the developer is changing things as the game continues to be developed

=====

If you are looking to just view the pictures or take a closer look at the game files you first need to decrypt the RPGM game files using a tool that can be found in an f95 thread [here](#) along with instructions on how to use it. Aside from looking through the files/pictures you can also use the System.rvdata2 file, found towards the bottom of the Extract\Data folder, in the online save editor below to apply names to the variables. Simply drag the System.rvdata2 file into the save editor as you would a save file before dragging your actual save file into the editor and the variables will be named, they will unfortunately be in Japanese but right clicking into the webpage will show you an option to “Translate into English”. This also works for labeling items by dragging the Items.rvdata2, found towards the top of the Extract\Data folder, into the editor the same way.

I use [this online save editor](#) for the RPGM games I want/need to cheat on, it is fully online so there is no need to download anything and it is very intuitive and easy to use. All you need to do is upload the save file you want to edit from any RPGM game, change the variables you want then download and replace your save file, the only challenge is finding the correct variable, but if you know what the current number of the variable you are trying to change is you can use Ctrl+f to help find it or look above to see how to apply names to the variables. I highly recommend creating two different saves and then editing only one, just in case you accidentally break something, that being said I do not believe I have ever broken a game with this save editor.

[This f95 thread](#) has some downloadable save editors.

Here are some of the more important variables:

Gold - Labeled at the top

Param Set #1 - Male Protagonist (This is where you change Exp/Levels)

Param Set #2 - Priestess

Variable#1 - Language, Set Value to 0 for Japanese and 1 for English

FAQ

- **Game will not start** - Ensure you have RPGM RTP files downloaded, this game requires the RPG Maker VX Ace RTP which can be downloaded [here](#). Next ensure you have changed your system locale to Japanese or are using a [Locale Emulator](#) to do the same. Finally, if you are still having problems make sure that your unzipping tool (winrar, 7zip, etc.) is set to unzip your files in Japanese.
- **When will the next update be out** - The developer generally releases 1-2 updates a month but this varies, you just have to wait and see. You can check the dev's [Twitter](#) or [Ci-en](#) posts to try and find more information but be aware they are both in Japanese.
- **When will the latest update be uploaded to f95zone** - Whenever someone uploads it, please don't comment begging for the latest update.
- **When will the latest update be translated into English** - This generally takes around 1-2 weeks after the Japanese version is released, the developer hires a professional translator but the release date can vary based on the amount of new text added in the latest update.
- **When will the game be finished** - Whenever it is finished, there is no real estimated date.
- **Blank text boxes** - If you see text boxes or dialogue options that are blank this is most likely because you are playing on the latest Japanese version that does not have an english translation, for example if you are playing on version 0.25 but there is only a translation available for version 0.23 then starting a game with the english language option will show you english text for all the content available up to version 0.23 and blank text boxes for all new 0.25 content.
- **How do I enter the Dungeon Test** - The Dungeon Test was removed in V0.32 so if you would like to enter it you will need to download an earlier version of the game, v0.31 or sooner.

- Potion Maker Camp Blowjob - Have Potion Maker as a follower and go camp in the wilderness, requires you to have previously viewed the PM blowjob scene in her shop

- Potion Maker Camp Event - Have Potion Maker as a follower and go camp in the wilderness, requires you to have previously viewed the new shop events above

Changelog (v0.41 - Alpha R4):

- You can now walk around as a solo character at locations outside the Capital, for now only in the Village on a trade route
- When going solo outside the Capital you can come across your party members in the town and then choose to act together, different combinations of characters will lead to differences in events
- Reputation and Erotic Reputation are added at each base, mostly just framework for now but in the future Reputation will affect things like limited quests and discounts and Erotic Reputation will affect how perversely the villagers will react towards you and your party members
- Inns outside of the Capital now have an actual building you can walk around in
- You can now negotiate prices at inns outside of the Capital, this is either real negotiation based on charm dice rolls or whoring out your party members, just the priestess for now I believe
- Netorase/Netorare event when negotiating prices to stay at an inn outside of the Capital, if netorase is on and Love>Lust you can ask the Priestess to sleep with the Inn Owner to reduce the price of your stay, if Lust>150 and Lust>Love the Priestess will ask you to leave "negotiations" to her when first selecting the option
- Winning a battle with Yarizo in the party will give a +1 to Yarizo erosion status, basically a way to raise Yarizo relationship without the cheat tool
- Changed how dice roll events are judged, from status value D6 => 2d6 + status value (same as combat)
- Added image to Dark Elf NPC x Male Protagonist Sex scene
- 4 events added to the Village on a trade route, these events differ depending on how many and which characters you have in your party or current group
 - Village on the trade route Small event "Milking"
 - Village on the trade route Small event "Night ranch"
 - Village on the trade route Small event "Traveling merchant"
 - Village on the trade route Small event "Supper at the inn", different events with 1, 2, and 3 people but there are apparently 'special events' for each combination of 2 people

- Potion Maker pee drinking, needs bond level 4, activated at Potion Maker’s shop, she drinks Male Protagonist’s urine
- Potion Maker is now affected by the Anal Slime trap found in the Sewer
- Bug Fixes

Changelog (v0.41 - Alpha R1):

- 1 event added between the Priestess and the man that approaches her in the main square of the Capital, has 2 different routes depending on love/lust stats, Netorase - Love=200 & Lust>150, Netorare - Love<50 & Lust>150. The Netorase version has a report scene in the Inn between Male Protagonist and the Priestess afterwards.

Changelog (v0.41a):

- New Main Quest Progression - This includes new main quests for the Main characters as well as a series of quests for Iris. There is also a new City and many new characters.
- True Route/Bad Route - In the new Main Questline (Chapter 3) your choices will set a flag determining whether Chapter 4 will follow Route A/B (True/Bad). There is apparently no changing this so make sure you save before starting the Chapter 3 quests
- New City - Sin City is a new major city like the Capital and will be the focus of the upcoming content
- Character Image Modding - Apparently you can replace the game file images with another image of the same name to change the Priestess' hair, clothes, facial expressions, etc. This only affects standing images and not any CGs, also there is currently no system for this but the dev may add one later on.

Changelog (v0.40 Dash):

- Relationship Event for the Potion Maker at her shop, 2 parts, needs Potion Maker Bond Level 4+
- Potion Maker events when spending the night at an inn outside of the royal capital, need to have Potion Maker with you obviously.
- Potion Maker Dungeon event, need to have Potion Maker as a companion in the Dungeon

- Potion Maker Camp Scene - Have Potion Maker as your companion and camp outside of town, go to bed and have the Priestess stand watch at night
- Beach Sexual Harassment Event - Located at the Beach, content appears to differ depending on your companion
- New Cheat God Item Function - Looks like it is some form of debug mode that allows you to watch the different versions of scenes that have conditional changes, for example the two new scenes above change depending on Yarizo relationship so this should let you watch all the versions

Changelog (v0.40b):

- Potion Maker is now available as a follower, you must be a two star adventurer and have a bond level of 3+ with the Potion Maker in order to recruit her
- Potion Maker appears to be able to mix potions with various effects during combat in order to support the Male Protagonist, she also follows your orders and does not harass the Priestess like Yarizo, Potion Maker can also be sexually harassed by enemies during combat similarly to the Priestess. Overall she is basically another Priestess.
- Potion Maker comes with her own circle events in dungeons as well as a camp event (currently 3 circle and 1 camp event)

Changelog (v0.40):

- Expansion of the Main Story, Chapter 2 is now finished
- 5 new Potion Maker events for Bond Level 3.
- 5 new Yarizo Harassment events, 1 at the Village close to the Trading Route, 1 at any Inn outside of the main city, and 3 at the Beach.
- Stages 3-5 of the "Lend the Priestess to Other Adventurers" event added, it is now completed.
- New Male Protagonist x NPC Netori side quest: Based around the Male Protagonist sleeping with an NPC's wife, if I understand correctly the event varies based on your sexual stats (endurance/technique) (This is the event that won the contest that has been going on for a few months)
- New outfits for female NPCs. Includes a few new pieces of clothing with some color variations as well as the addition of used condoms in various places in their clothing. Also added a standing portrait for the Barbarian woman (arm wrestling) in the Pub.
- Added new enemies to the game, these new enemies do not currently have in-combat H-scenes yet. Slime enemies (from the Dungeon Test) have been readded to the game, I believe the Slime Sensitivity thing (or whatever it was called) is also implemented, this raises the Priestess' sensitivity and makes her love getting attacked by slimes in a similar way to how the Goblin trauma works. I believe it can be removed with a 'quiet perfume'.
- New area in the Sewers (B2F), this appears to be the introduction of the Gnoll camp (those two things from when you controlled Leon and Iris during a main quest).
- New erotic event in The Sewers B2F. Texts changes to depict Netorare/Netorase depending on the Priestess's Lust/Love stats. (Requires 200 in one or the other)
- 3 New weapons are now available for purchase at the Blacksmith's shop. (Long Sword, Dagger, and Great Sword)
- The player can now increase their Erotic Endurance and Erotic Technique with the Cheat God item.

Changelog (v0.39):

- New Yarizo Party Mechanic - When Yarizo is in your party and you have reached bond level 2+ the Priestess will slowly gain excitement.
- New Netorase event line based around lending out the Priestess to other adventurers, currently 2 parts, needs 50+ Lust, triggered in Adventurer's Guild (?)
- New Flirt menu scene - Have the Priestess drink your pee
- New Male MC x NPC scene - As solo Male Protagonist go to the Casino and you can receive a blowjob and have sex with the bunnygirl closest to the slot machines if you give her 50 tickets (I believe you need to have high enough sexual endurance to last through the blowjob and then you can proceed to sex)

- Dungeon Circle Events (random / follower / unique) have returned, these are the colored circles from the dungeon test that give you a random event from a list based on their color, new unique dungeon event in the Sewers (located in the iron lattice room(?) in the underground sewage)
- 2 new traps added to the goblin dungeon (?), they both appear to be a smoke screen type trap, at least one of which leads to an ntr event with Yarizo

Changelog (v0.38):

- New story content following Leon and Iris after completing the prior main quest
- Hospitaler is introduced to the main game
- New Yarizo Netorase event - Cunninglingus, unlocked after the fingering scene at the desk in your inn room
- New building 'Casino' has been added - I believe it is the far left building in the Red Light District
- Casino Netorare event - While the Priestess is wearing the Bunny Girl suit play the slots at the Casino
- Two sexual harassment events added in the Casino
- New costume pieces for the Priestess - Bunny Girl suit, Bunny Girl ears, and Fishnet stockings, obtained by speaking to an old man in the Casino and giving him some used stockings that are obtained from the Potion Maker.
- If the protagonist's sanity is too low, you are blocked from entering the Casino.

Changelog (v0.37):

- If the Priestess has a lust value of 50+ then you can access some Flirt Menu scenes outdoors in the back alleys around the Capital
- New Flirt Menu scene - Slime lotion blowjob, requires a bottle of slime which can be acquired by purchasing an empty bottle from the Potion Maker and filling it up with slime in the Sewer
- New Flirt Menu scene - Back alley sex, can be seen by opening the Flirt menu in a back alley in the Capital if Lust is 50+
- New Yarizo scene - Yarizo has sex with an unnamed female NPC in the Low Traffic Street, requires Yarizo Bond level 2 and solo Priestess

Changelog (v0.365): [The broken hand update]

- 3 new Potion Maker events (for bond level 2)

Changelog (v0.36):

- 1 new Yarizo Netorare event, Yarizo's Bond level can now be increased to level 2, to raise the Bond level get Yarizo's friendship points to the maximum of level 1 (50 points) and then an event will unlock that will activate when you camp and the Male Protagonist takes watch while the Priestess and Yarizo sleep.
- 2 new events for Potion Maker after reaching level 2 bond, access by talking to the Potion Maker
- 1 new Netorare event, if you have cleared Chapter 2, a drunken adventurer will appear at the tavern in the capital at night. If Lust=200 and Love<=199, something may happen after taking him to the room. Apparently if you have the secret NTR mode on, something special happens to this event as well.
- The cheat tool now has an option to increase the friendship points for Yarizo and the Potion Maker, doing this will increase the friendship points to the maximum of the current bond level, i.e. using this while at Yarizo bond level 1 will increase his friendship points to 50 and you can then proceed to the event that increases his bond level, afterwards if you use the cheat again you will increase his friendship points to the maximum of bond level 2 and be ready to increase the bond level to 3 after it is implemented.

Changelog (v0.35):

- Story quest added, unlocked after completing the Orc Pig Subjugation quest (2 new erotic graphics included)
- 3 new H-scenes added (2 Flirt menu scenes [Foot Licking and Armpit job] and 1 scene when eating a meal with the Priestess at the Bar [Footjob, requires masochist value of 1+])
- Priestess body check expanded to include Feet and Armpits, also supports bukkake
- Battle Screen UI changes (Now shows additional information at the top of the screen, including things like HP/MP, and Fatigue. Still a work in progress)
- Various bug fixes

Changelog (v0.34):

- 2 new Bar scenes, 'Mischievous on the Priestess's butt' and 'Fishy energy drink' (Semen drinking/Gokkun). Both appear to involve Yarizo and thus are either Netorare or Netorase
- 2 new Bathhouse scenes, 'Bukkake on the Priestess's clothes' and 'Yarizo peeping' Again both appear to involve Yarizo and thus are either Netorare or Netorase
- 2 new Low-Traffic Street scenes, 'Backstreet Scarecrow' and 'Message from your husband? 1' Again both appear to involve Yarizo and thus are either Netorare or Netorase, there is also apparently a 'Message from your husband? 2' but it is not currently viewable so I am not sure why it was mentioned
- 1 new Inn Room scene, 'Yarizo Fingering Lecture' becomes available after viewing the first Yarizo fingering scene found in the Inn Room, this one is Netorase probably

- New Recollection Room - Accessed by the drawers in your Inn room, only some events are currently viewable
- Torches can be used in the item menu in order to turn them on/off inside of dark dungeons, torches are consumed after a certain amount of steps on normal/hard difficulty
- Action Points are now consumed over time by moving in the dungeon
- Bug fixes - You may need to make a new save for the bugs to be fixed properly

Changelog (v0.32):

- The equipped costume for the Priestess is now reflected in many of the standing portraits in/out of combat, this is still a WIP and there may be bugs or images not properly rendered yet
- Added 2 new skills in the game. One for the Male Protagonist to learn in the Tavern (Dancing Unicorn), and one for The Priestess at Church. Existing skills have also been slightly reworked due to combat system changes

- Added an "Invincible Cheat Shield" in your inn room if you have selected Fap difficulty, makes you unable to die but allows you to see in combat sexual harassment
- Added new dynamic and random sexual harassment events between Yarizo and The Priestess during combat.
- Combat system entirely revamped, still in the process of being changed
 - Changed how combat commands with followers work, the sequence of combat now goes Male Protagonist -> The Priestess -> Your Follower -> Enemy. This means each character in your party gets an individual command rather than everything happening on the Male Protagonist's turn. Followers may not listen to your commands, this is based on relationship value but some followers, like Yarizo, will simply do whatever they want regardless
 - Enemy targeting has been changed for both damage and sexual harassment. Targeting now works based on tokens, for damage there are 'Hate Tokens' that will increase on each character based on the actions they take, the character with the most hate tokens is the one that will be targeted for enemy attacks. For sexual harassment there are 'Horny Tokens' that will be added at the beginning of the enemy turn, these tokens can reach a maximum of 10 with each increasing the chance the enemy will target your female party members for sexual harassment until reaching 100% at 10 tokens.
 - Changes in equipment, equipment will now have requirements based on various factors such as type and stat requirements, not meeting these criteria will reduce weapon effectiveness
 - Changes in how damage/defense is processed, damage dealt is now calculated based on a dice roll, based on your weapon and stats, to determine how much damage is dealt which is then subtracted by the armor value of the target. There are also weapon accuracy and dodge chances. You can now only defend with a shield equipped
 - Fatigue is now actually relevant and reaching max fatigue will lead to attribute penalties and female characters being unable to resist if sexually harassed. Fatigue is now also gained during combat based on the actions you take instead of just when you use skills

Changelog (v0.31):

- Quests and Gifts that raise relationship level have been implemented, gifts are purchased in the Sex Shop
- Relationship level overhaul, now relationships with characters have five levels and they can be raised by Gifts or doing certain Quests, Potion Maker currently only has scenes for relationship level 1
- 4 new Potion Maker events, 4 new graphics, and 1 new relationship level have been added
- Yarizo Netorase event, if you have talked to the Priestess about your Netorase desires and have Yarizo in your party you can ask to watch a netorase event between the Priestess and Yarizo, Yarizo currently only has scenes available for relationship level 1, located at the heart over the table in your Inn room
- Yarizo sexual harassment event, located in the Slime Pit inside the Sewers, have the Priestess step into a trap in the Slime Pit with Yarizo in your party
- Simple version of Erotic Stat viewing, you can now finally see your erotic stats in game, although it is still a work in progress

Most of the YarizoxPriestess content seems to have been transferred over from the Dungeon Test and there also appear to be a few new netorare scenes as well.

Dungeon Test - Removed From Game

Can now be found [here](#) as a standalone game.

=====

Enter the Dungeon Test by interacting with the wardrobe in your Inn room. You can change settings and stat values with the bookstand to the right after entering. To see most scenes change the Netorase Allowance to 999.

If you interact with the Dancer, next to the nun at the entrance, the Priestess can learn the crab dance which she can use to tempt enemies to rape her during combat, this works on all goblins but seems to work all the time on normal goblins and only infrequently on rider goblins.

Interacting with the Nun will let you change the Priestess's Goblin Trauma value which at high levels makes the Priestess react negatively when encountering a goblin, I think there are three different reactions? The Priestess becomes heroic, The Priestess cowers in fear, or The Priestess does the Crab Dance to seduce the goblin, this is based on the trauma level and lust value, all of these make the Priestess unable to be commanded by the male Protagonist. The Priestess can also naturally gain trauma by being raped by goblins.

- Scenes change based on the Priestess' lust value, I believe there are only two levels so you can see all the scenes by having 999 lust and 0 lust.
- Scenes also change based on Yarizo relationship value, there are generally 2-4 different scenes per Yarizo event so you should play through with 0, 6, 8, and 10 to see them all.

Event Circles

=====

Blue:

Male Protagonist:

- Strange Mushroom
 - Male Protagonist eats it - Blowjob, chance to heal Male Protagonist instead
 - Priestess eats it - Kiss then Blowjob
- Poisoned Adventurer - If Netorase Allowance is high enough you can tell the Priestess to suck the poison out, different dialogue at 0 lust and 999 lust
- Humid Cave - Dialogue, some Yandere depending on choices

Yarizo: (Don't think there are any Lust Value changes here.)

- Big Booty Priestess - Dialogue, NTR Tease at Yarizo relationship value 10
- How's it goin' Miss Priestess? - Dialogue, NTR Fingering scene at Yarizo relationship value 6

Yellow:

- Goblin Gangrape Event (As Priestess)

Camping

=====

- Talk - Dialogue, some changes based on relationship value, don't think there are any lust changes
- Make Love - If Netorase Allowance is high enough you can have the Priestess have sex with Yarizo, don't think there are any changes based on lust or relationship values
- Sleep - Stand guard
 - Male Protagonist
 - Sounds in tent, below Yarizo relationship value 10 there is a surprise for you in the morning, at 10 Yarizo relationship value there is a hidden sex scene, don't think there are lust changes
 - Priestess
 - Reverse Rape - Lust 50+ and Yarizo not in the party
 - Yarizo
 - Thief - Yarizo rapes NPC thief, Priestess has some Yandere dialogue towards Male Protagonist
 - Priestess is... - Different dialogue and scenes based on Yarizo relationship and lust

Hole Trap

=====

If you fall into a hole and Yarizo is with you there will be a scene, changes at relationship values, don't think there are any lust changes.

Yarizo NTR During Combat

=====

Upon entering the trap(4th) area there will be a sparkle that you can interact with to the left, if you change the follower request probability then Yarizo will call the Priestess for 'help' during combat. There are different scenes based on relationship value, I don't think lust changes anything. You can see what is happening during the battle with pixel sex behind your character and after the battle is over you can view the scene.

If you turn on Secret NTR mode at the sparkle you will not be able to see the pixel sex or the scene afterwards, you will only be able to hear the Priestess' moans in the battle text.

Goblin Loss Event

=====

If you lose a battle to Goblins the Priestess gets raped and then captured, afterwards you get sent to a room with a magic ball where you can skip days and see what happens to the Priestess in captivity, you can also see the brutal end. After viewing the scenes you can re-enter the dungeon by choosing to save the Priestess.

Slime Event

=====

When battling the slime it crawls over the Priestess and makes her super sensitive??? Not really sure what the slime thing is supposed to do...

Ogre Boss

Room is currently buggy and entering may cause your game to crash

=====

During battle, the boss will pounce on Kohaku if the meat shield is killed. If not blocked, the Priestess will be grabbed and start getting raped after a few turns, each turn being raped will cause the Priestess to lose HP, when her HP reaches 0 there will be a brutal end scene.

Dungeon Test - Status Values

=====

- High Netorase Allowance allows the Priestess to participate in NTR events such as giving a poisoned adventurer a blowjob or having sex with Yarizo in front of the Male Protagonist while camping.
- When Lust is over 150, the Priestess will be able to remove her tights. When Lust is over 200, she can remove all clothes. Different lust values also change dialogue/images during H-scenes.
- When Goblin Trauma is over 100 and Lust is under 100 - Upon entering combat with a goblin the Priestess remembers when she was raped and becomes Heroic or Fearful (Can be commanded as usual or cowers in fear making her unable to be commanded)
- When Goblin Trauma is over 100 and Lust is over 100 - Upon entering combat with a goblin the Priestess remembers when she was raped and has strong desire to be fucked, she will seduce the goblin by doing the crab dance
- Yarizo Event Progression - Higher Values change event dialogues/results as the Priestess becomes more willing to cheat on the Male Protagonist with Yarizo
